Stock code: 603681

COLD CHAIN LABEL

Food & Beverage

Materials & Structure

Face Material	PP white, synthetic paper, thermal synthetic paper, semi gloss paper, thermal paper		
Adhesive	Freezer-grade hot melt / water-based adhesive	**Release Liner**	Glassine paper
Application	Refrigerated and frozen food packaging, quick-freeze bags, fresh-keeping containers, cold chain logistics, automatic labeling on plastic bags at -15°C etc.	**Features**	• Maintains adhesion at low temperatures without falling off. • Provides resistance to moisture and condensation.

YG GROUP
Stock code: 603681

HEAT-RESISTANT LABEL

Food & Beverage

Materials & Structure

Face Material	High temperature resistance thermal paper		
Adhesive	Water-based adhesive	**Release Liner**	Glassine paper
Application	Primarily used for price tags, promotional labels, and other retail applications.	**Features**	• Withstands up to 105°C. • Offering excellent heat resistance suitable for various environments.

YG GROUP
Stock code: 603681

PERSONAL CARE PACKAGING LABEL

Daily Chemical & Personal Care

Materials & Structure

Face Material	Transparent BOPP, clear PE, white PE, PP white, Bright silver PP		
Adhesive	Water-resistant, high-transparency water-based adhesive	**Release Liner**	Glassine paper / PET
Application	Applied to labels for personal care products such as shampoo, body wash, and hand wash.	**Features**	• No whitening at the label edges after water immersion once applied. • Water- and oil-resistant; ideal for squeezable bottles.

YG GROUP

Stock code: 603681

WET WIPE LABEL

Daily Chemical & Personal Care

Materials & Structure

Face Material	White PP, transparent BOPP		
Adhesive	Reclosable solvent-based adhesive	**Release Liner**	Glassine paper
Application	Applied to the sealing of wet wipes and dry tissue products.	**Features**	• Waterproof and tear-resistant, compatible with thermal printing, suitable for high-speed labeling. • Adhesive resistant to alcohol, chemical solvents, and water. • Repositionable for multiple removals and reapplications.

YG GROUP

Stock code: 603681

CARDBOARD BOX LABEL

Logistics & ecommerce

Materials & Structure

Face Material	Kraft paper		
Adhesive	Hot melt adhesive	**Release Liner**	Glassine paper / PEK
Application	Used for labeling boxes and cartons.	**Features**	• Material color matches the box or carton for a uniform appearance. • The label surface is printable.

YG GROUP

Stock code: 603681

THERMAL BAGGAGE TAG

Transportation

Materials & Structure

Face Material	Thermal synthetic paper		
Adhesive	Hot melt adhesive / acrylic	**Release Liner**	Glassine paper
Application	Air transportation, Hotel luggage management, Tour bus luggage identification, Logistics luggage consignment etc.	**Features**	• High tear resistance. • Resistant to external influences.such as rain or abrasion. • Flexible material for easy wrapping and sealing of tags around handles and straps.

YG YG GROUP
Stock code: 603681

BOARDING PASS

Transportation

Materials & Structure

Face Material	Thermal card paper		
Application	Aviation boarding pass, movie tickets, theater tickets etc.	**Features**	• Efficient printing, Clear and stable information, • Excellent physical properties.

YG GROUP

Stock code: 603681

SHIPPING CONTAINER LABEL

Functional Label

Materials & Structure

Face Material	PP white, synthetic paper, gloss white PET with TC, gloss white PE with TC		
Adhesive	Solvent-based rubber	**Release Liner**	Glassine paper
Application	Designed for container marking, maritime marking, and seaside facilities signage.	**Features**	• Excellent UV resistance, abrasion and scratch resistance. • Resistant to solvents and corrosive liquids. • Great conformability with strong adhesive performance on various surfaces.

YG GROUP

Stock code: 603681

TIRE LABEL

Functional Label

Materials & Structure

Face Material	Coated paper laminated with metallized PET/PP, gloss white metallized PET		
Adhesive	Tire adhesive	**Release Liner**	White silicone paper
Application	Tire storage, transportation, and end-use identification.	**Features**	• Excellent initial tack and strong adhesive holding power. • Provides secure adhesion on rough and uneven surfaces. • Laminated after printing to effectively prevent abrasion and contamination.

YG GROUP

Stock code: 603681

KIDS STICKER LABEL

Custom DIY Project

Materials & Structure

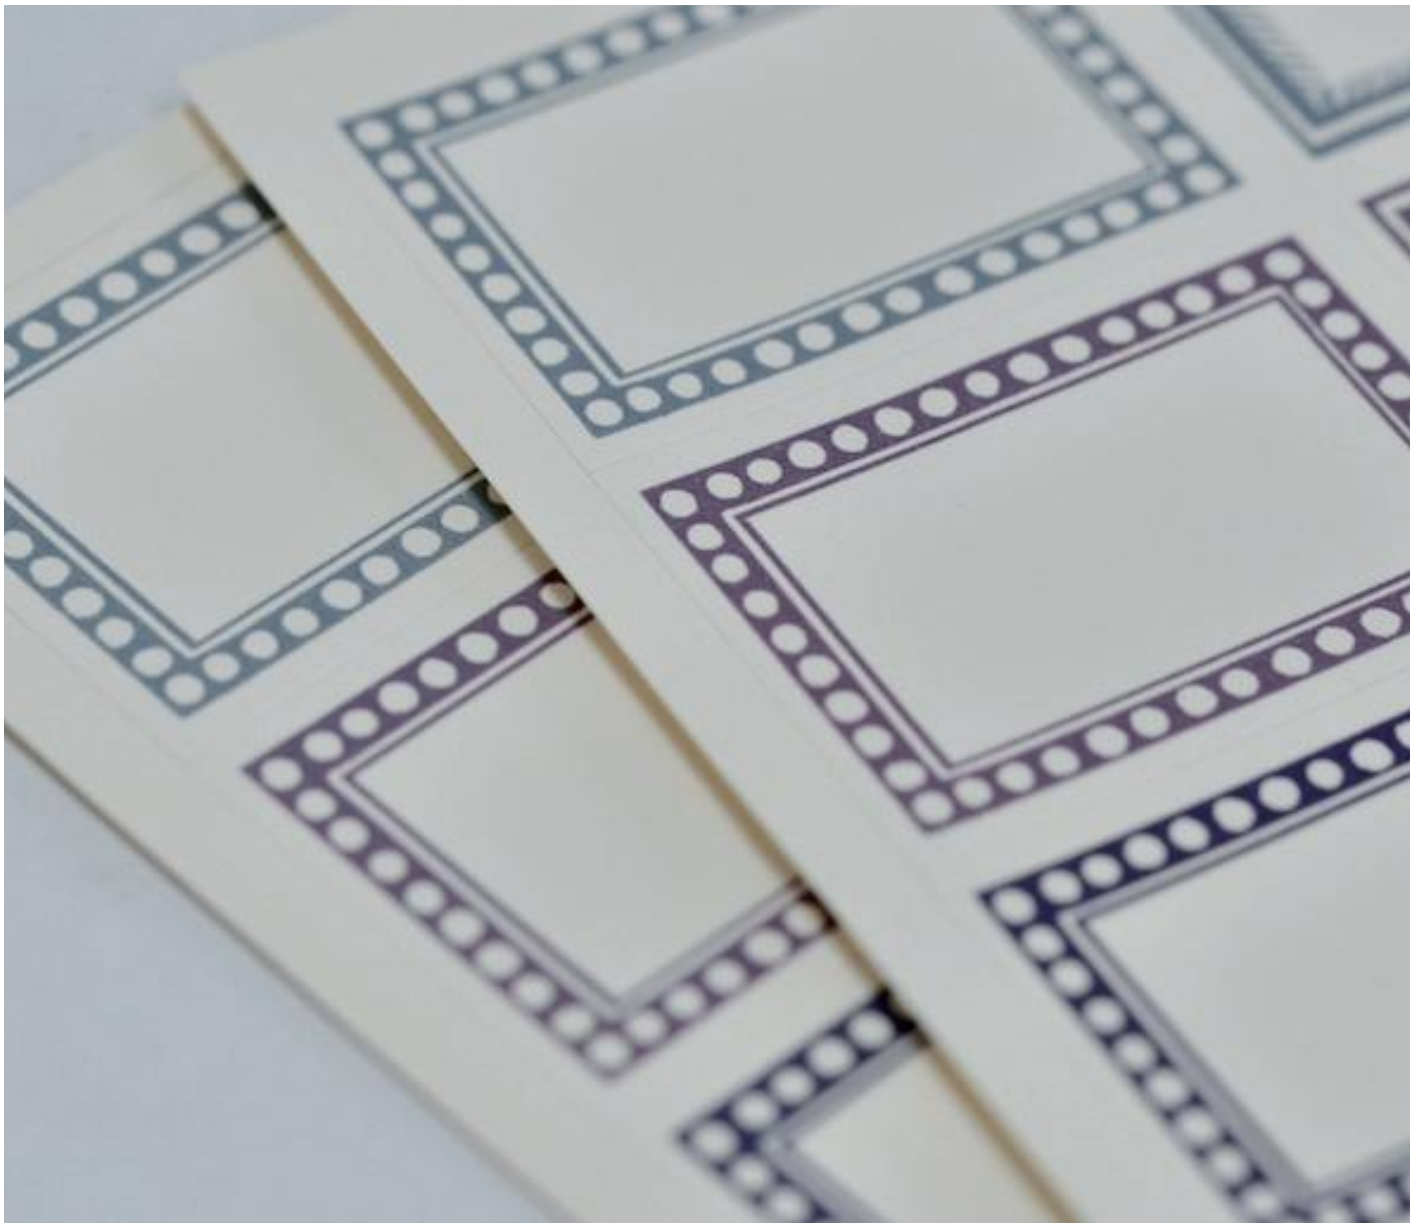

Face Material	Semi gloss paper, cast coated paper, PP white, transparent BOPP		
Adhesive	Removable water-based adhesive	**Release Liner**	Glassine paper / PEK
Application	Used for toys, stationery, gifts, DIY creative stickers, educational stickers etc.	**Features**	• Non-toxic and eco-friendly adhesive, vibrant colors, easy to peel and stick, surface-safe, ideal for repeated use.

YG GROUP

Stock code: 603681

SHEET LABEL

Sheets

Materials & Structure

Face Material	Semi gloss paper, cast coated art paper, synthetic paper, PP white		
Adhesive	Water-based adhesive / Hot melt adhesive	**Release Liner**	PEK / CCK
Application	Suitable for flat sheet printing machines such as offset presses, flatbed digital printers, and flat sheet printers.	**Features**	• Provides excellent flatness. • Backing-slitted can be customized according to customer requirements.

YG GROUP
Stock code: 603681

ENERGY EFFICIENCY CLASS LABEL

Electronic & Appliance

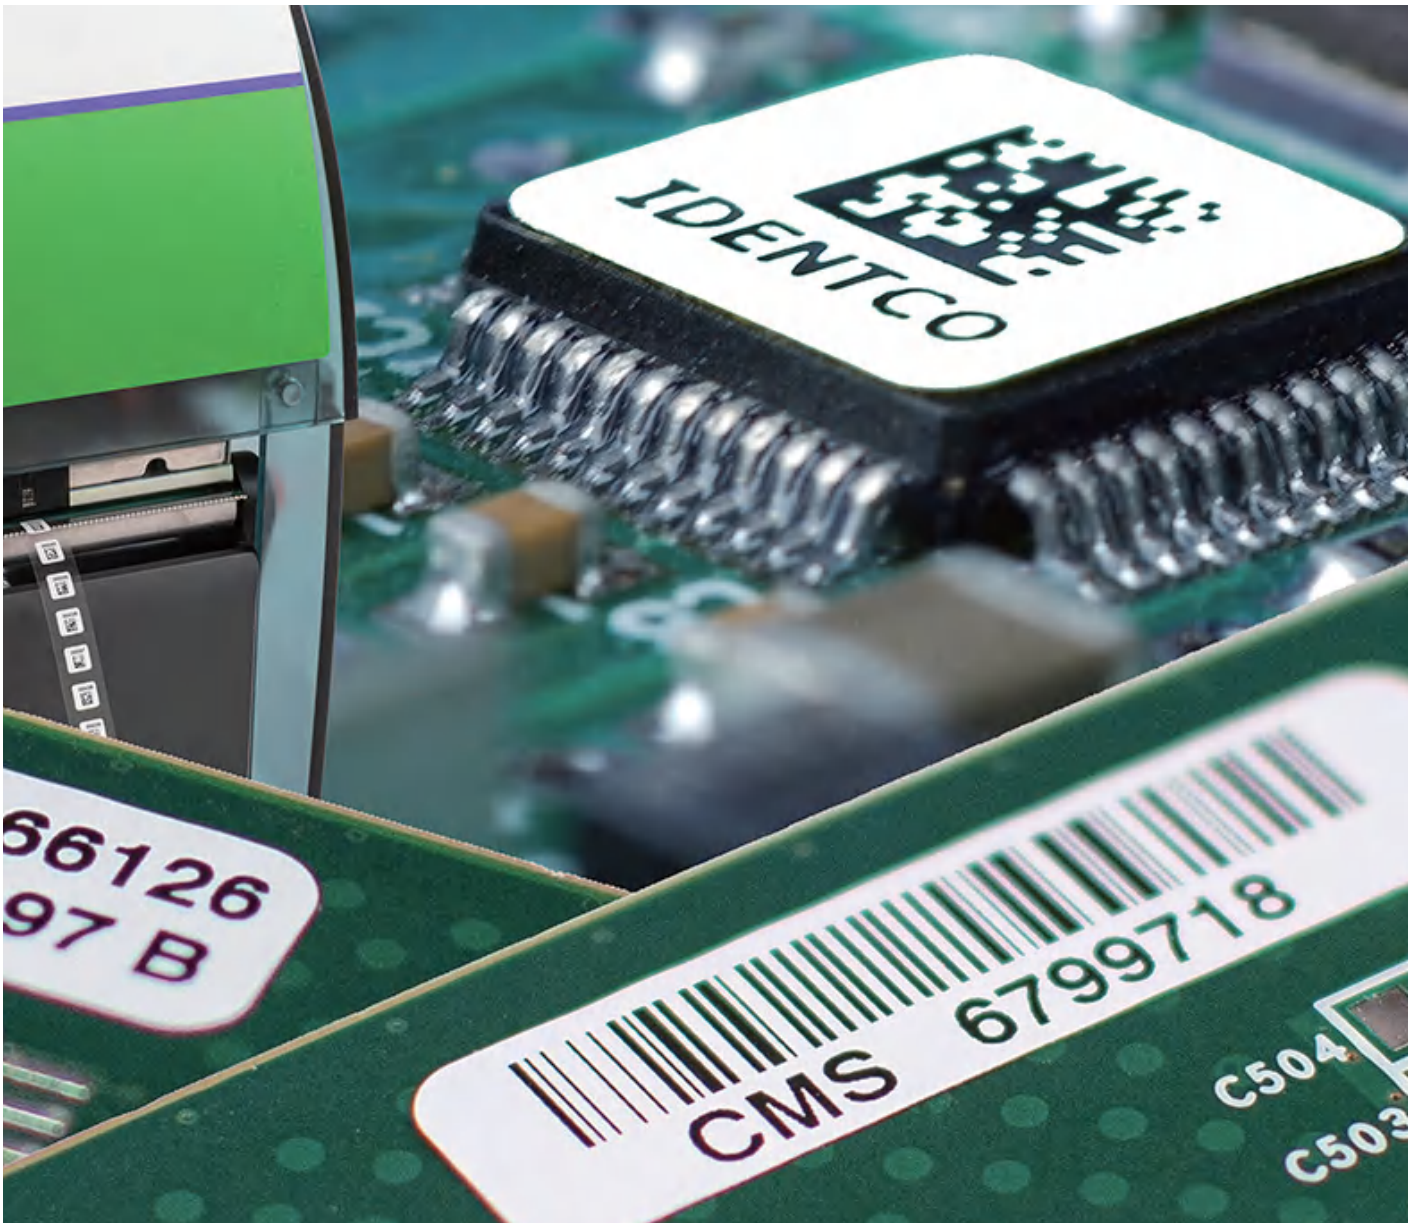

Materials & Structure

Face Material	Coated paper, synthetic paper, PET		
Adhesive	Water-based adhesive	**Release Liner**	Glassine paper
Application	Affixed to home appliances such as refrigerators, air conditioners, and washing machines before leaving the factory for consumers' reference when purchasing.	**Features**	• Durable material, able to keep information intact during the service life of home appliances.

YG GROUP
Stock code: 603681

ELECTRONICS LABEL

Electronic & Appliance

Materials & Structure

Face Material	Coated matte silver PET, coated glossy white PET		
Adhesive	Solvent-based adhesive	**Release Liner**	Glassine paper
Application	Used for labeling electronic components, industrial equipment, and appliance nameplates.	**Features**	• Both face material & adhesive are resistant to high temperature. • Excellent scratch resistance, water and oil resistance, and strong weatherability—ensuring long-term readability of printed information.

YG YG GROUP
Stock code: 603681

REMOVABLE LABEL

Specialized Solutions

Materials & Structure

Face Material	Thermal synthetic paper, thermal transfer paper, coated paper		
Adhesive	High-tack removable solvent-based adhesive	**Release Liner**	Glassine paper
Application	Ideal for short-term information display such as temporary price tags, receipts, and logistics labels. Used for temporary vehicle passes, inspection stickers, and parking permits.	**Features**	• Good removability without residue, meeting needs for temporary labeling.

YG GROUP
Stock code: 603681

HIGH TACK HOT MELT ADHESIVE LABEL

Specialized Solutions

Materials & Structure

Face Material	White PP		
Adhesive	Hot melt adhesive	**Release Liner**	Glassine paper
Application	Designed for blow-on labeling and application to smooth, hard-to-stick surfaces such as coated plasticbags.	**Features**	• Resist immediate removal after light pressure application when applied to smooth substrates.

YG GROUP
Stock code: 603681

SMALL-DIAMETER MEDICAL CONTAINERS LABEL

Pharmaceutical and Healthcare

Materials & Structure

Face Material	Semi gloss paper, synthetic paper, premium semi gloss paper		
Adhesive	High-tack water-based adhesive / High-tack solvent-based adhesive	**Release Liner**	Glassine paper / PET
Application	Labeling small-diameter containers including oral liquids, vials, and reagent bottles.	**Features**	• Designed for high-speed labeling and reliable application on curved surfaces without edge curling or lifting.
